

Release Notes - connectBlue Bluetooth Repeater

Introduction

Congratulations on your purchase of a connectBlue *Bluetooth Repeater*.

This document is valid for the following Bluetooth Repeater models:

- cB-OEMSPA311
- cB-OEMSPA331
- cB-OEMSPA312
- cB-OEMSPA332

Release History

Release	Date	Comment
Repeater 3.2.0 [15:03:51, Aug 24 2006]	2006-08-28	Beta 1 Repeater for a point-to-point connection.

Known Limitations and Notes

For some application scenarios there may be a problem with link/data loss for link policies that support sniff (link policies 4-8). The behavior is dependent on the traffic generated by the application, so it is recommended that thorough tests be performed on any application scenario where sniff mode is used.

Anomaly Reports

If you experience problems with your *Bluetooth Repeater* please fill out an anomaly report and email it to support@connectblue.se.
